

# Lesson 5: BRAINSTORMING

## Arranging with Colors

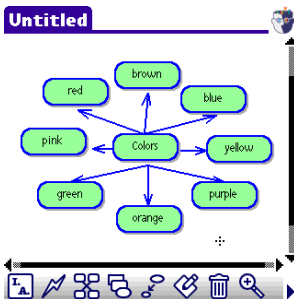

“Generate” -- “Orchestrate” -- “Elaborate” a web of colors to learn how you can arrange ideas with Inspiration.

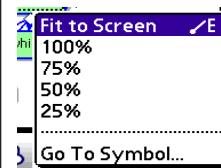

- 1 • Open Inspiration.

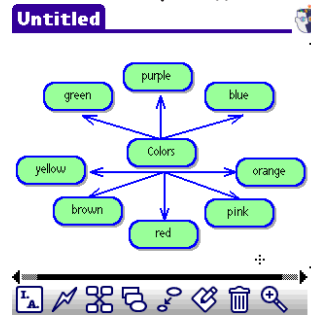

- Write “Colors” (replacing “Main Idea”), then select RapidFire and brainstorm lots of colors. (Type word, push enter/return, word, return...)

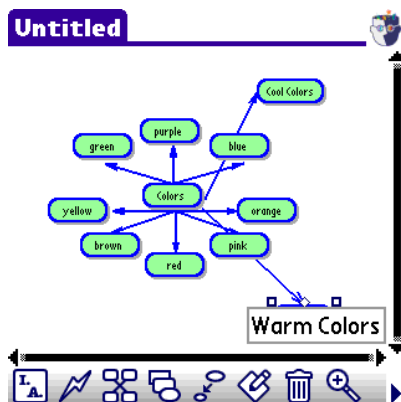

- 2 • To make it easier to see, select the magnifying glass icon in the lower left corner of the screen and choose “Fit to Screen”

- Now, let’s “orchestrate”! Select and drag symbols out to separate “warm” from “cool” colors.

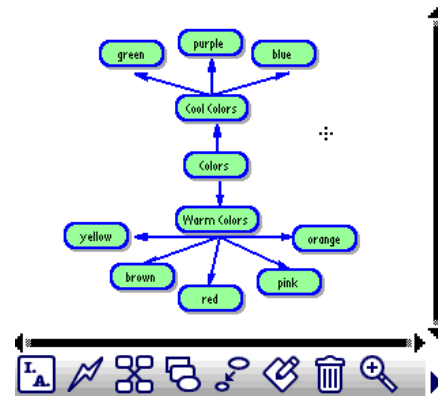

- 3 • Now that you have the warm and cool colors separated out, let’s insert two new topics from the main idea. Title one, “warm colors” and the other “cool colors”

- 4 Select and drag one end of each link to it’s appropriate “warm colors” or “cool colors” title

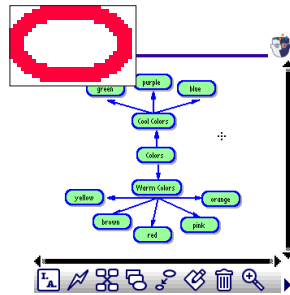

Now you should have something like this:

## Lesson 3: BRAINSTORMING Arranging with Colors

**5** Now let's color the Symbols!!

- Select one symbol...
- Tapping the upper right hand corner of the screen,
- Select "Diagram" and "Symbol Properties"

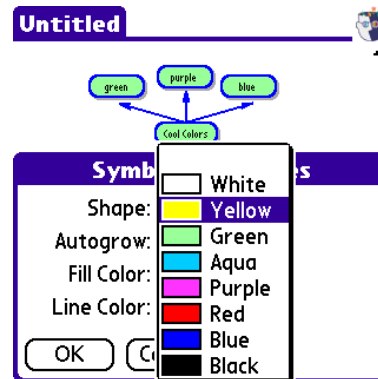

**File Edit Diagram Options**

**Symbol Properties... /R**

**Link Properties... /L**

• Save your work!!!

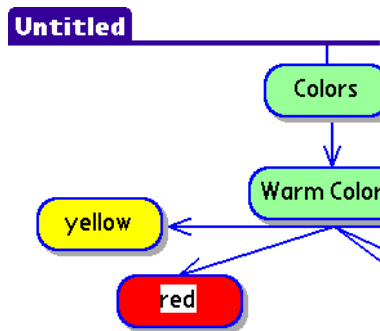

**6** • Under "Fill Color" choose as many corresponding colors as possible for each symbol.

(You can experiment with changing the color of the Link as well by by choosing "Line Color" )

**7**

- When you have made and saved something like this...

*You have completed*

**Lesson 3:  
BRAINSTORMING**

**Cool !**
